SUMMARY

Electronics and Telecommunication Engineering student at MIT Academy of Engineering seeking a **Backend Engineering Intern** role. Skilled in building RESTful APIs, working with SQL databases, and deploying scalable **SaaS** systems on AWS. Proven **collaboration** and **problem-solving** abilities through academic team leadership and competitive hackathons. Experienced in B2B SaaS backend architecture, DevOps deployment on EC2, and production-grade Node.js and Express development.

WORK HISTORY

Team Lead – Academic & Hackathon Projects

MIT Academy of Engineering

📍 Pune

Lead for academic and hackathon projects at MIT Academy of Engineering.

- Led cross-functional teams of 4–5 across multi-sprint projects; owned task allocation, milestone tracking, and final deliverable quality - **improving delivery speed by ~30%**.
- Mentored teammates on REST API design, AWS services, and debugging practices; reduced integration bugs during sprint reviews by standardizing code review checkpoints.
- Managed end-to-end B2B SaaS-style project workflows: design, implementation, unit testing, and DevOps deployment on AWS EC2.

PROJECTS

Hodor AI - E-Commerce Shopping Assistant

Node.js | Express | MySQL | NoSQL | AWS | Python 01/2026 - 04/2026

- Built RESTful APIs for a conversational B2B SaaS shopping assistant combining dual AI models (Kimi K2 for reasoning, Qwen for image recognition) with a structured rule-based execution engine.
- Designed Node.js + Express backend enabling real-time product discovery and multi-store price comparison across **3+ SaaS platforms**.
- Engineered Python scraper layer; integrated MySQL (AWS RDS) and **SQL** session store for user auth and memory - **reducing manual data lookup by ~60%**.
- Deployed full stack on AWS using DevOps practices (S3, EC2, RDS); implemented STT/TTS voice I/O and image-based product search.

AWS 3-Tier Scalable Web Application

AWS S3 | EC2 | RDS | IAM | JavaScript

03/2026 - 4/2026

- Architected production-grade 3-tier web app on AWS; provisioned EC2 backend, S3 static hosting, and RDS – **supporting 100+ concurrent requests**.
- Configured IAM least-privilege security policies; **reduced manual deployment overhead by ~40%** through standardized infrastructure scripts.

Responsive Developer Portfolio Website

HTML5 | CSS3 | JavaScript

06/2024 – 07/2024

- Designed and deployed a mobile-first responsive portfolio; optimized load speed achieving **90+ Lighthouse performance score**.

CERTIFICATIONS

AWS Cloud Practitioner Essentials

Amazon Web Services

AWS Cloud Quest Practitioner

Cloud Practitioner Badge & Certificate

KEY ACHIEVEMENTS

🔧 Hackathon Achievements

Cleared Smart India Hackathon internal rounds **twice**; won **3rd place** at Indira College Inter-College Hackathon competing against teams from multiple institutions.

EDUCATION

B.Tech – Electronics & Telecommunication Engg

MIT Academy of Engineering

📅 08/2023 – 05/2027
